WATER IS STILL PLENTIFUL

DESPITE THE DROUTH THE YEAR'S FALL TO DATE IS ABOVE THE AVERAGE.

THE HEAVY PRECIPITATION LAST SPRING GAVE THE CITY A GOOD RESERVE-THIS SEASON'S ARE THE DRIEST JULY AND AUGUST

> ON RECORD - COMPARISONS WITH OTHER MONTHS.

The fall of rain for the last six weeks has been nusually light. July and August are the months in which the floodgates of the skies are generally This year, however, the amount of rain which has fallen in these months is less than that known for many years. Last month was the July mentioned in the records of the Weather Bureau here. The total amount of rain which fell was 1.26 inches. The normal rainfall for July is 4.57 inches. Back in 1888 July had only 1.27 inches of rain. This year the greater part of the rain which fell in July was precipitated on the night of the 26th, when there was a total downpour of 51-100 of an inch. This month will lower all records for dryness if the drouth continues. Up to August 15 only 51-100 of an inch of water had fallen. The driest August mentioned in the records of the Weather Bureau had 1.18 inches of rain. The nor-mal rainfell for August is 4.75 inches.

There is still much water stored up, however, to met the demands of the city. Early this year of the items are: the rainfall was greatly in excess of the normal amount. It was so great that, in spite of the drouth of the last few weeks, the amount of rain which has fallen from January 1 to August 15 is still 3.01 inches more than the normal precipitation for that time. The excessive rains took place in January and February. In February there was an excess of 4.65 inches; in March, .37 of an inch; April, 2.96 inches, and in May, 2.01. In June \$40,000. the rainfall began to be lower than the average There was a deficiency of .85 of an inch for June, and 3.31 inches for July. Up to June 1 the excess of rain above the normal amount was 9.06 inches. The deficiency of 6.05 inches since June 1 has reduced the excess of rain for the year to 3.01 inches above the normal amount.

The amount of rain precipitated since the first of the year in this part of the country, as shown by the records of the United States Weather Bureau, is as follows: January, 3.56 inches: February, 7.81 inches: March, 4.47 inches: April, 6.35 inches: May, 5.66 inches: June, 2.56 inches: July, 1.26 inches, and August, up to the 15th, 51 of an inch. In 1802 the rainfall for July was 2.45 inches, and in August 3.96 inches of rain feil. Last year September, with NT of an inch and October, with 63 of an inch of rain, were the driest months. The wettest month was November, when the rainfall was 8.28 inches. By averaging the rainfalls of the last twenty years it will be found that July and August have been the months when the rainfall was the heaviest.

The waters descended upon the town twice yesterday, and the surrounding country drank in the much-needed rain. There was a shower in the morning, and last evening there was another light fall of rain. The air was cooled, and the city was really a comfortable place to live in yesterday. The amount of moliture which was precipitated was small. According to the measurements of the United States Weather Burcau, the total fall of rain was 7-100 of an inch. by the records of the United States Weather

THE COURTS.

THEY TUNNELLED A TEN-INCH WALL.

BOLD AND INDUSTRICUS BURGLARS WORK THEIR WAY THROUGH THE REAR OF A BUILD-ING IN THE BOWERY AND GET CONSIDERABLE PLUNDER.

From the rear yard of a tenement-house in Eliza-

both-st. burglars dug through the wall of the building No. 274 Bowery on Tue-day night, and entered the store of the American Talloring Company on the ground floor. They carried away cloth and garments valued at several hundred dollars. The robbery was one of unusual boldness, and the police are croquest tournament. making a careful search for the burriars. I. Shackman, who is at the head of the tailering company, said yesterday that he was astent-hed when he went to the store on Wednesday morning, and saw the hole had dug out the bricks to make a hole about eighteen same club, excited great interest, their delicate, rapid Inches wide, and then had pushed the plastering in side the store. They could have gone through the tenement-house, No. 260 Elizabeth st., without treable, but it was surprising that they could have worked but it was surprising that they could have worked at tunnelling the wall of the Bowery building without vanquished Germand, and Mansfield, in the second division.

detection, because the rear windows of the tenement-house overlook the yard where the burglars must have been bury for hours, and it has been the custom for occupants of the house to skep on the rear fire-escapes during warm rights. The house is occupied chiefly by Italian families.

The burgars broke into the office in the rear of the store and looked for money there, but found only a \$\mathbb{E}\$ bill which was puried on a class partition. They tore away part of the bill and left the rest of it sticking to the glass. Several finished garments and pieces of cloth were carried away. Mr. Shackman said yesterday that the value of the stell a property was about \$600. The police found a steel jimmy in the store.

THE DISPOSITION OF GARBAGE.

layor Gilroy accompanied Street Cleaning Commissioner Andrews on one of the department tigs yes-terday out to the city's dumping grounds, five miles off Rockaway Beach. In speaking of his investigations the Mayor said that the best and most economical way to dispose of the city's gurbage was to dump it on the outgoing tide. This could not be done with the city's old scows, which took twenty-three Italians four hours to unlead them. The last of the material might not have been thrown out when the tide set in again and offst was carried back to the The dumping scows were unloaded in eight

minutes.

The Mayor said he had made another discovery.

The city," he said, "is disposing of cellar dirt, quantities of stone and waste material of various kinds at it expense, never collected from the streets or garbage barrels. Somebody in the department is conniving at this or it could not be done. An investigation will be made and this imposition will be itspeed.

AFFAIRS IN BROOKLYN.

THEY WANT TO RETAIN THE CAPTAIN. A circular entitled "To Take Steps for the Fu Welfare of the Company," and signed by First Sergeant H. H. Walker, was sent to the nembers of Company G, 234 Regiment, calling for a meeting of the company last night. The meeting was held, and it developed the fact that the relations between Captain Charles R. Silkman and First-Lieutennt Henry De Witt Hamilton, of that company, were strained. In fact, it was said that the captain had intimated to the other that the regiment was not large enough for both of them, and that one of them would better resign. Lieutenant Hamilton refused to resign whereupon Captain Silkman handed in his own

At the meeting a resolution was unanimously passed requesting Colonel Partridge not to acept Captain Silkman's resignation. It is alleged that Lieutenant Hamilton was too free and easy in his associations with the men while in camp this summer, and that this is the ground for the coolness between the two officers.

A CONTRACTOR'S CLAIM FOR EXTRA WORK. Papers were served on Controller Corwin yesterday afternoon by Charles Hart, a contractor, in a claim against the City of Brooklyn for \$102,085. Hart secured the contract for section 8 of the aqueduct extension east of Rockville Centre, and his claim is for "extra work, damages, etc." Some

Wood will arrange an art loan exhibition for the fair. The Fostoffice Employee's Association has also promised its aid, and the Free Masons purpose taking part in it.

WHITE PLAINS.

I. Howard Kinch, the recently appointed Commisner of Jurors for Westchester County, has completed the jury-roll for the next year. He reports er 3,000 elicible jurors and 667 exempted persons, mainly volunteer firemen. The Commissioner says that the county will save at least \$2,600 a year from the knowledge acquired concerning exempt persons in the cost of subpoena-serving alone, to say nothing of ending the trouble of having men present in court on trial days who are exempt. Members of various churches have united to put a stop to the practice of running stages through the streets on Sundays to the parks in the vicinity of the village. They allege that a number of these vehicles are uniformed, and of those that are keensed no record has been filed with the village clerk, as the law prescribes.

Acting Mayor Simpson, of Jersey City, yesterday
gave a public hearing in regard to the proposed
ordinance giving the Consolidated Traction Company the right to lay tracks in various streets and
to establish trolley routes. The main objections
came from the Jersey City Rapid Transit Company, which claimed rights in several of the streets
named. This company also alleged that the Consolidated Traction Company did not intend to construct lines in some of the streets named, but merely sought to prevent the Jersey City company from
occupying them. It also alleged that the Traction
company proposed to cross the Newark and New
York Railroad at grade, and as this road runs
eighty trains a day, there would be great danger to
life. Mr. Simpson said he would consider these
matters fully before signing the ordinance.
